# At a Glance

HTEC had an aging firewall estate which was approaching end of life support with Cisco and would no longer meet PCI-DSS criteria. Through using the Cisco ASA platform, HTEC were unable to take advantage of the next generation features with the current network infrastructure configuration. After showcasing our skills and expertise at our Innovation Centre, HTEC chose to continue its decade long relationship with Cisilion and upgrade its firewall infrastructure.

## Who is HTEC?

HTEC provide some of the world's leading retailers with EPOS, payment and loyalty solutions. With over 35 years' experience in the industry, their software is designed with the forecourt and convenience market in mind. Processing over **2.5 million loyalty transactions across 5 countries, 100 million payment transactions each year, and 1.5 million stock files daily**; HTEC are committed to delivering the ideal solutions to make their customer's business more efficient.

“HTEC have been working with Cisilion for over 10 years on a variety of projects, and they have played a key role in delivering superb service and quality to HTEC and the support of our customers.”

Carl Amey , Head of Data Centre, HTEC

- 1 **Legacy Cisco ASA firewalls approaching end of life support.**
- 2 **Ensuring compliance with constantly evolving regulations**
- 3 **Required a strong security posture to defend against malicious attacks**

Cisilion leveraged our Cisco Gold Partnership to deploy eight ASA5525X firewalls and FMC1000 appliances, firewall pairs and multiple device contexts for key customer segregation and a lab environment.

This enabled crucial next generation features which was also supported by Cisilion's 24x7 managed service.

HTEC have gone beyond PCI-DSS compliance requirements through the FirePOWER management FMC1000 interface, to ensure that they have a fully future-proof solution.

**Gone Beyond**  
PCI-DSS Compliance.

**30%**  
more performance for the same price.

**Complete Visibility**  
Against malicious attacks and vulnerabilities in their network.

# CISILION

## About Cisilion

Our customer led approach means we work with firms globally to successfully their on-premise IT inventory. By partnering with Cisilion, you can rest easy knowing that your network is in good hands and that you can rely on our expert team to provide top tier support and technical expertise whenever you need it.

With Smart Services, you get the best of both worlds the benefits of manufacturer support and Cisilion's maintenance services, as well as our partner managed sparing and logistics capabilities This unique combination delivers substantial cost savings and enhanced value added.
